

A. RAJASHREE
Frontend Developer

SUMMARY:

Experienced Frontend Developer with a passion for creating user-friendly web applications. Seeking a Software Developer role to leverage skills in HTML, CSS, JavaScript, React.js, Basics of Redux, AJAX, Bootstrap, Git, jQuery, JSON, and Node.js. Committed to contributing expertise to achieve specific goals and accomplishments.

TECHNICAL SKILLS:

- Frontend Development: HTML, CSS, JavaScript
- Frameworks: React.js, Bootstrap, jQuery
- Backend: Node.js
- UI/UX Design Principles
- API Integration: AJAX, JSON
- Version Control: Git
- Problem Solving and Debugging
- Responsive Design

EXPERIENCE:

Software Developer | Zory Board Software solution | June 14,2021 - May 6, 2022

- Collaborated with cross-functional teams to create dynamic and responsive web applications.
- Utilized React.js and Redux for state management, resulting in improved user experiences.
- Integrated APIs using AJAX and JSON to fetch and display real-time data.
- Developed UI components with Bootstrap, enhancing visual appeal and consistency.
- Implemented version control using Git, facilitating efficient teamwork and code management.

Software Trainee | Indium Software Company | City, State | Feb 1, 2020 - May 28,2020

- Worked on software applications using technologies such as JavaScript, bootstrap and JSON .
- Collaborated with team members to solve technical challenges and contribute to projects.
- Enhanced user engagement through jQuery animations and interactivity.
- Ensured responsive design for seamless experiences across devices.

EDUCATION:

- Bachelor of Technology in Information Technology | Misrimal Navajee Munoth jain engineering college |Chennai, Tamil Nadu | 2019
- G.K Shetty Hindu Vidyalaya | HSC | Chennai, Tamil Nadu | 2015

ACADEMIC PROJECT:

Face Recognition at Low Resolution based on Informative Knowledge Distillation

- Developed a face recognition system focusing on low-resolution images using Informative Knowledge Distillation.
- Implemented the project using Java 8 and utilized Eclipse IDE 2018 Photon for development.
- Achieved Enhanced Robustness, Reduced False Positives, Improved Recognition Accuracy.

ACHIEVEMENTS:

- Received recognition for consistently delivering high-quality code and adhering to project timelines.
- Contributed to successful team collaborations, resulting in enhanced project outcomes.
